

July - September have been very busy. Meetings have been long and committees meet often. During this time, we have accomplished so much.

The most exciting decision is to keep your library where it is. We are NOT moving! We have also decided it is time to address our space, technology and accessibility needs. We are moving forward with the building expansion plans. This will be a long process. Soon, you will receive a survey in your Pennysaver. Please complete it and return it to the library. You can also complete it on our website. There is a committee for this project. Your input is vital to our success. If you are interested in participating please let Renate know.

Other actions taken by your board

1. Reinstated original library hours.
2. Formation of committees.
3. A successful Open House.
4. Met with Village and Town boards to thank them for past and future support.
5. Updated book keeping and reporting practices.
6. Reviewed investment practices and changed strategy successfully.
7. Applied and continue to apply for grants to supplement our operations and special projects
8. Fund raising is well underway.
9. Board members have attended many workshops presented by Renate and PLS.

Till next time,
Enjoy you library.

Gail Milner
